Unable to reach a wildlife rehabilitator?
Call your state wildlife agency or a wildlife Veterinarian.

If you are unable to reach any of the above, see instructions on back of this page: **"How to rescue Baby Birds"**

If you find a baby duck, goose, quail or killdeer:

- If you know the mother is dead, or if baby is injured, call a wildlife rehabilitator right away.
- If baby is separated from the mother and you know where she is, place baby close by so she can hear it. Watch from a distance.
- If the mother is not found or does not claim the baby within an hour, call a wildlife rehabilitator. If you cannot reach one, rescue the baby (see instructions on back).

A baby's best chance for survival is its mother
